

COVER LETTER

Dear Editor,

I, Prof. Ahmad Sobri would like to submit my original manuscript titled “**Padimedical: Medical Image Sharing Portal with DICOM Viewer – User experience**” to be considered for publication in your esteemed journal, International Journal of Human Technology and interaction.

This article is original and the content has not been published or submitted for publication elsewhere. We believed that this paper would be appropriate for publication in your journal because we have created a platform to solved most of the issues involving medical imaging especially on image sharing. It is called as Padimedical DICOM viewer. This platform enables doctors viewing DICOM files outside of hospital and allow remotely access using smartphones. This will help to improve healthcare system especially for communication between doctors from different centers.

I would like to acknowledgement that all authors have contributed significantly to the manuscript, and that all authors are in agreement with the content of the manuscript.
